SNUFF PUPPETS

Snuff Clubb

Snuff Clubb is where the unconscious becomes conscious, dreams, nightmares, reality and the surreal freely intermix and the line between audience and performer is destroyed. Not just a night in the theatre, but a cabaret club gone wild, with never before seen giant puppets, live music and special guest acts.

As the night unfolds, the inner machinations of the characters twisted psyches are revealed as the Clubb itself begins to unravel. The Clubb's setting and performers will lead the audience through a grotesquely surreal physical transformation. Once in the Clubb it will feel like everything and anything can happen.
